P. 4:33

REPORT OF APPARENT VIOLATION OF CONDITIONS OF RELEASE

This report is made pursuant to 18 U.S.C. § 3154(5).

Defendant appeared before Your Honor on October 31, 2006, and was released pursuant to 18 U.S.C. § 3142, on various conditions, including the condition the defendant refrain from use or unlawful possession of a narcotic drug and other controlled substances defined in 21 U.S.C. § 802 unless prescribed by a licensed medical practitioner.

On January 12, 2007, the defendant submitted a urine specimen that tested positive for cocaine on a five-panel field test. The defendant denied using cocaine. He stated he had recently taken a crack pipe away from his aunt and cleaned up some baggies belonging to her and that he may have absorbed cocaine into his

system. The specimen was sent to Scientific Testing Laboratories, Inc., for confirmation. The specimen was confirmed positive for cocaine on January 17, 2007.

After being confronted with the lab results, the defendant still denies using cocaine. However, he is agreeable to participating in outpatient substance abuse treatment.

Section 3148 of Title 18, U.S. Code provides that "The attorney for the Government may initiate a proceeding for revocation of an order of release by filing a motion with the district court."

The Court may, on its own motion, cause the defendant to be brought before it, either by arrest or by summons, for the purpose of determining whether the order of release should be revoked or modified.

**Assessment and Recommendation:**

This violation is the defendant's first violation of his release conditions. He has abided by all other conditions to date. Therefore, it is recommended that the defendant's conditions of release be modified to include the condition that he participate in a program of outpatient substance abuse counseling.
